

The NEW GOLD STANDARD

Agnico-Eagle Mines Limited

Investor Fact Sheet - July 23, 2008

GOLD RESERVES (MILLIONS OF OUNCES)

CORPORATE STRATEGY

Maintain focus on per share value creation

- Produce more gold
 - expecting fivefold increase over 2007 to 2010 period
- Grow gold reserves
 - ability to grow beyond year end 2008 target of 18 million to 20 million ounces
- Acquire small, think big
 - recent investments in Gold Eagle and Complex
- Be a low-cost leader
 - at full production rates anticipate to be in lowest quartile total cash cost
- Maintain a solid financial profile
 - advanced negotiations for increased bank facility

2008 PRODUCTION FORECAST

Payable production: Au (ounces)	300,000 to 320,000
Ag (ounces in thousands)	4,200
Zn (tonnes)	68,000
Cu (tonnes)	7,300
Total cash costs / oz (US\$)*	\$80*

* Assumptions for 2008 total cash costs include current spot pricing for metals and currency exchange

AEM

We are an international growth company focused on gold, with operations in Canada and advanced-stage projects and opportunities in Canada, Mexico, Finland, and the USA. Agnico-Eagle's LaRonde Mine in Quebec is Canada's largest gold deposit in terms of reserves. The mine generates strong earnings and cashflows and is an excellent foundation for our international expansion.

A
LaRONDE
QUEBEC, CANADA
 The LaRonde mine is our consistent engine of earnings and cash flow with mine life expected to extend through 2021.

B
GOLDEX
QUEBEC, CANADA
 The most advanced project in our pipeline began production in April 2008, two months ahead of schedule.

C
KITTILA
KITTILA, FINLAND
 With production expected to start in September 2008, Kittila is set to become Europe's largest producing gold mine.

D
LAPA
QUEBEC, CANADA
 The ore extracted from the high-grade Lapa deposit will be processed at the nearby LaRonde facility.

E
PINOS ALTOS
CHIHUAHUA, MEXICO
 Pinos Altos boasts a growing gold and silver resource in a highly prospective precious metals camp.

F
MEADOWBANK
NUNAVUT, CANADA
 Meadowbank's near-term gold production and exploration potential made it an important 2007 acquisition.

LONG-TERM GROWTH STRATEGY

- Add shareholder value through exploration
- Execute accretive acquisitions
- Develop and operate gold mines in areas of low political risk
- Focus on regions with long-term mining camp potential

FORWARD LOOKING STATEMENTS

The information in this document has been prepared as at July 23, 2008. Certain statements contained in this document constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward looking information under the provisions of Canadian provincial securities laws. When used in this document, the words "anticipate", "expect", "estimate", "forecast", "will", "planned", and similar expressions are intended to identify forward-looking statements or information.

Such statements and information include without limitation: statements regarding timing and amounts of capital expenditures and other assumptions; estimates of future reserves, resources, mineral production and sales; estimates of mine life; estimates of future mining costs, cash costs, minestone costs and other expenses; estimates of future capital expenditures and other cash needs, and expectations as to the funding thereof; statements and information as to the projected development of certain ore deposits, including estimates of exploration, development and production and other capital costs, and estimates of the timing of such exploration, development and production or decisions with respect to such exploration, development and production; estimates of reserves and resources, and statements and information regarding anticipated future exploration; the anticipated timing of events with respect to the Company's minesites and; statements and information regarding the sufficiency of the Company's cash resources. Such statements and information reflect the Company's views as at the date of this document and are subject to certain risks, uncertainties and assumptions, and undue reliance should not be placed on such statements and information. Many factors, known and unknown could cause the actual results to be materially different from those expressed or implied by such forward looking statements and information. Such risks include, but are not limited to: the volatility of prices of gold and other metals; uncertainty of mineral reserves, mineral resources, mineral grades and mineral recovery estimates; uncertainty of future production, capital expenditures, and other costs; currency fluctuations; financing of additional capital requirements; cost of exploration and development programs; mining risks; risks associated with foreign operations; risks related to title issues at the Pinos Altos project; governmental and environmental regulation; the volatility of the Company's stock price; and risks associated with the Company's byproduct metal derivative strategies. For a more detailed discussion of such risks and other factors that may affect the Company's ability to achieve the expectations set forth in the forward-looking statements contained in this document, see Company's Annual Information Form and Annual Report on Form 20-F for the year ended December 31, 2007, as well as the Company's other filings with the Canadian Securities Administrators and the U.S. Securities and Exchange Commission. The Company does not intend, and does not assume any obligation, to update these forward-looking statements and information.
