With its emphasis on quality, an exceptional record of creating shareholder value, and one of the most robust growth profiles in the industry, Agnico-Eagle Mines Limited has emerged as the gold stock of choice.

Corporate Strategy

Increasing reserves, production and cash flow per share

Increase gold production

- Targeting 9% increase in gold production in 2011 and 1.5 million oz by 2014

Grow gold reserves

- Reserves increased to a record 21.3 million oz in 2010
- Targeting more than 22 million oz at year end 2011
- 2011 exploration budget up 30% to record \$145 million

Acquire small, think big

- Strategic investment portfolio expected to grow
- Focus on early-stage M&A with minimal share dilution

Be a low-cost leader

- Total cash costs expected to remain below industry average at \$495 per ounce in 2011

Maintain a solid financial profile

- Increasing net free cash flow as production increases and capex decreases
- Annual dividend at \$0.64 per share, up 256% yoy

The Investment Case for AEM

Investment Objectives	Gold ETF	Junior Explorers/Developers	Senior Gold Operators	AEM
Yield	X	X	✓	✓
Stable, De-risked Leverage to Gold Price	✓	X	✓	✓
Meaningful Exploration & Expansion Upside on a Per Share Basis	X	✓	X	✓

Fully Funded Growth Continues

Targeting 1.5 million oz by 2014, a 50% increase over 2010

Payable Gold Production Estimates (millions of ounces)

Growing Exposure to Gold

Gold Reserves (millions of ounces)

AEM's operations are 100% owned. They are located in regions of low political risk and with long-term mining camp potential.

Increasing reserves, production and cash flow per share.

Transformation complete – production now from all six mines. Internal expansions to add to one of the strongest growth profiles.

Uniquely positioned with potential for up to five deposits with at least five million ounces of gold reserves.

Corporate Social Responsibility

Committed to creating economic prosperity for our stakeholders in a safe, socially and environmentally responsible manner.

Fish spawning platform Monitoring water quality

- Lapa Division was the recipient in 2010 of the F.J. O'Connell trophy for improvements in the field of accident prevention.
- LaRonde mine won its fifth consecutive provincial mine rescue championship.
- Awarded Nunavut Mining Company of the Year at the 2010 Nunavut Mining Symposium.
- Manitou-Goldex Rehabilitation Project: Established program with the Quebec government to rehabilitate an orphaned acid-generating tailings site using neutralizing tailings from Goldex.
- AEM is the first foreign mining company to have received ESR certification as a socially responsible company from the Centro Mexicano para la Filantropia for the third consecutive year.
- The Pinos Altos mine was awarded the "Clean Industry Certificate" by the Mexican environmental protection authority. The Clean Industry Certificate is an acknowledgement awarded to those companies that comply with all relevant Mexican environmental regulations.

Forward-Looking Statements

The information in this document has been prepared as at June 30, 2011. Certain statements contained in this document constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward-looking information under the provisions of Canadian provincial securities laws. When used in this document, the words "anticipate", "expect", "estimate", "forecast", "will", "planned", and similar expressions are intended to identify forward-looking statements or information.

Such statements include without limitation: statements regarding timing and amounts of capital expenditures and other assumptions; estimates of future reserves, resources, mineral production and sales; estimates of mine life; estimates of future internal rates of return, mining costs, cash costs, minesite costs and other expenses; estimates of future capital expenditures and other cash needs, and expectations as to the funding thereof; statements and information as to the projected development of certain ore deposits, including estimates of exploration, development and production and other capital costs, and estimates of the timing of such exploration, development and production or decisions with respect to such exploration, development and production; estimates of reserves and resources, and statements and information regarding anticipated future exploration; the anticipated timing of events with respect to the Company's minesites and statements and information regarding the sufficiency of the Company's cash resources. Such statements and information reflect the Company's views as at the date of this document and are subject to certain risks, uncertainties and assumptions, and undue reliance should not be placed on such statements and information. Many factors, known and unknown, could cause the actual results to be materially different from those expressed or implied by such forward-looking statements and information. Such risks include, but are not limited to: the volatility of prices of gold and other metals; uncertainty of mineral reserves, mineral resources, mineral grades and mineral recovery estimates; uncertainty of future production, capital expenditures, and other costs; currency fluctuations; financing of additional capital requirements; cost of exploration and development programs; mining risks; community protests; risks associated with foreign operations; governmental and environmental regulation; the volatility of the Company's stock price; and risks associated with the Company's byproduct metal derivative strategies. For a more detailed discussion of such risks and other factors that may affect the Company's ability to achieve the expectations set forth in the forward-looking statements contained in this document, see the Company's Annual Report on Form 20-F for the year ended December 31, 2008, as well as the Company's other filings with the Canadian Securities Administrators and the U.S. Securities and Exchange Commission. The Company does not intend, and does not assume any obligation, to update these forward-looking statements and information. Marc Legault, a Qualified Person and the Company's Vice-President, Project Development, reviewed the technical information disclosed herein. For a detailed breakdown of the Company's reserve and resource position see the February 16, 2011 press release on the Company's website. That press release also lists the Qualified Persons for each project.
